SPA overview of the internal audit planning process

JANUARY 2021

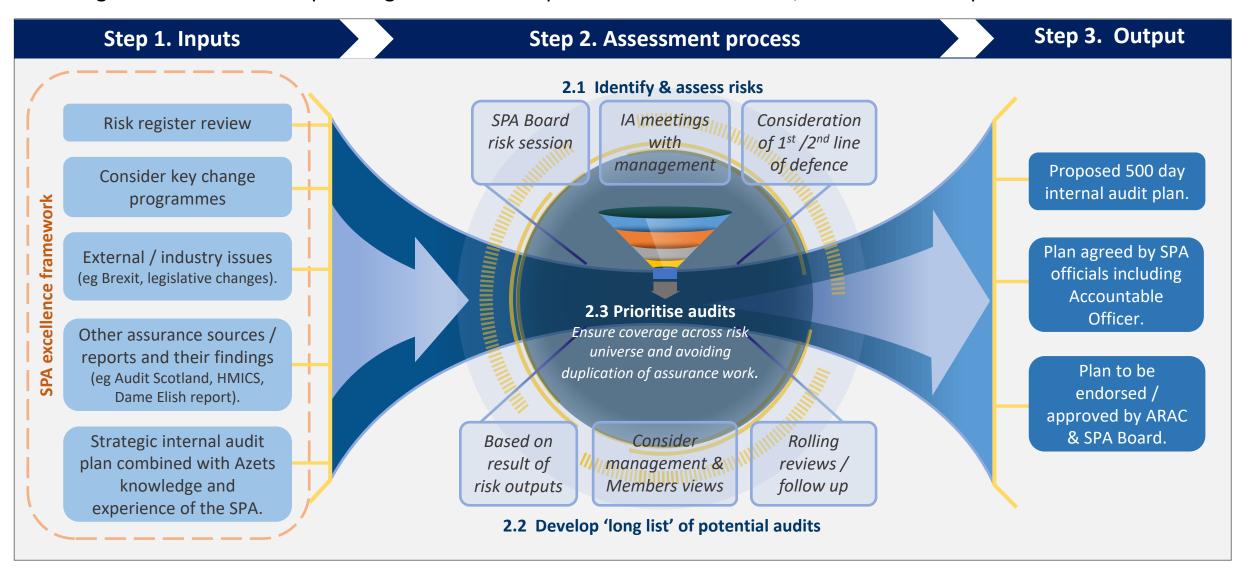

Context: SPA excellence framework

In 2019, internal audit worked with the service to develop an assurance map using the four lines of defence model as part of the SPA excellence framework. The SPA's line of defence model and sources of assurance are summarised below. This report focuses on third line of defence; assurance provided to the service and Members by independent internal auditors.

Internal audit planning process

This diagram summarises the planning and assurance processes to set the 2021/22 internal audit plan.

Ongoing SPA officials oversight

- The SPA's head of finance, audit and risk has responsibility for overseeing the routine internal audit provision.
- SPA staff have been involved in the development of the internal audit plan and are assured that a robust process has been followed that has considered: risk, wider internal/external issues, feedback from Members/management and achieves appropriate coverage across the 'audit universe'.
- SPA will continue to monitor the delivery of internal audits throughout the year.

Summary of proposed audit plan

Internal audit plan 2021/22

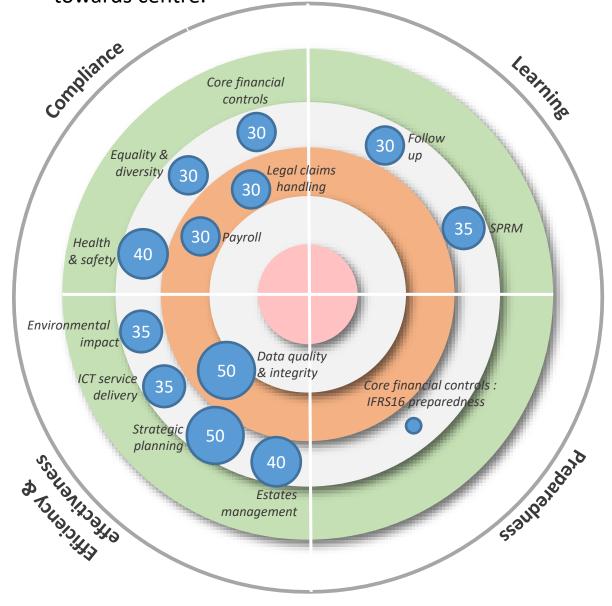

- Following the methodology outlined, Azets have proposed an internal audit plan for 2021/21.
- The SPA has been involved in its development, considered this plan and agrees that it provides appropriate coverage across the audit universe and appropriately responds to risk whilst taking account of consideration from Members and management alike.
- SPA officials including the Accountable Officer endorse this plan for the Audit Risk and Assurance committee consultation and SPA Board approval.

Ongoing monitoring

- SPA officials will continue to oversee the performance of the internal audit plan.
- This ongoing monitoring will involve:
 - ✓ overview and input to audit scope documents;
 - ✓ considering performance against KPI's;
 - ✓ conducting a sample of post audit performance reviews with auditees. This process is new to the SPA and is intended to gain qualitative feedback on internal audit performance.

Risk radar
