

SPA Board Meeting Rolling Action Log

Action No	Action	Action Owner	Status	Expected Date of Completion	Actual Date of Closure	Update/Comments
MEETING HELD 30 September 2020						
300920-SPABM-02	Mental Health Pathway: Further discussion to take place, once data and practical benefits are identified following pilot.	DCC Will Kerr	OPEN	31.03.21		12.11.20: A full review of the effectiveness of the Mental Health Pathway and existing referral process is scheduled to take place in March 2021, approximately six months post implementation. Work is also being progressed to develop a more sophisticated referral model, of which full details are contained within the Mental Health Demand on Frontline Policing paper. Propose ongoing
300920-SPABM-01	Cyber Strategy: Fully costed and integrated implementation plan with scenarios, eg speed or phasing depending on funding available, to be shared internally within Police Scotland by end of calendar year, and thereafter shared with the Authority prior to SPA budget setting process.	DCC Malcolm Graham	OPEN	31.12.20		19.11.20: This is ongoing and being progressed under the Cyber Strategy Oversight Group with representation from key business areas. The Cyber Resilience & Digital Capability Board includes membership by key stakeholders and oversees the design, development and strategic direction. Propose ongoing

Action No	Action	Action Owner	Status	Expected Date of Completion	Actual Date of Closure	Update/Comments
MEETING HELD 19 AUGUST 2020						
190820-SPABM-03	Health and Safety Report: Clarity to be provided on whether the reduction in RIDDOR figures during arrest is due to the reduction of people in custody.	James Bertram	OPEN	30.09.20		<p>18.09.20: A definite determination around the change in statistics cannot be made at this time although it would appear a likely hypothesis. Of note is a clear drop in RIDDORs for arrests in public places in Q1 during lockdown. The Health & Safety Team will continue to monitor trends and report to the Resources Committee and the Board.</p> <p>16.11.20: We are unable to determine the reason why there has been a reduction in RIDDOR figures within custody and while one hypothesis may be this is due to lower numbers of people being arrested, we have also seen some relatively busy periods within the custody environment. Our model has also changed to include Covid Custody Centres where some may argue the risk could be slightly higher. It will be some time before clear trends are apparent. The H&S Team have spent a significant amount of time working within Custody Centres and with staff to increase awareness and create safer working environments. Any information which comes to light will be reported to the Resources Committee and the Board.</p> <p>Propose to close</p>
