<b>Date</b>	<b>6 May 2020</b>
<b>Location</b>	<b>Teleconference</b>
<b>Title of Paper</b>	<b>Management Progress on Internal Audit Actions</b>
<b>Presented By</b>	<b>Gary Devlin, Partner, Scott-Moncrieff</b>
<b>Recommendation to Members</b>	<b>For Discussion</b>
<b>Appendix Attached</b>	<b>Internal Audit Follow Up Report</b>

**PURPOSE**

This paper summarises management progress in completing management actions arising from internal audit reports.

The paper is presented in line with the Scottish Police Authority Internal Audit contract.

The paper is submitted for discussion.

## **1. BACKGROUND**

- 1.1 A follow up tracker is maintained by Police Scotland (PS) to record updates on the progress made by management across PS to implement actions from previous internal audits. We have agreed with Police Scotland that they will make the tracker available to Internal Audit on a quarterly basis for review. We also liaise with SPA staff to obtain updates in relation to SPA-specific actions.

## **2. FURTHER DETAIL ON THE REPORT TOPIC**

- 2.1 We note that 37 of 53 actions (70%) have been carried forward to the next quarter, 33 of which have passed their original timescale for completion as at the time of our follow up. Updates and revised due dates have been provided by management. For those actions that are past their expected completion date, we confirmed that management has made reasonable progress, though completion of a number of actions has been impacted by COVID-19. We were able to validate the closure of 16 actions, 8 of which are higher risk (Grade 3 or 4).
- 2.2 The total number of open actions has decreased this quarter from 53 to 37. The total actions that are past their original due date increased from 17 to 33, however we understand that 11 of these are substantially completed but could not be finalised as a consequence of the suspension of business as usual due to COVID-19. These include a number of significantly aged items, some of which are higher risk, including eight outstanding from 2016/17 (one grade 4) and two from 2017/18. Management should remain focused on clearing these aged actions as a priority.

## **3. FINANCIAL IMPLICATIONS**

- 3.1 The Internal Audit Report considers the impact our review findings may have on organisational risk registers. Committee members should consider this section when considering the overall implications of our findings.

## **4. PERSONNEL IMPLICATIONS**

- 4.1 The Internal Audit Report considers the impact our review findings may have on organisational risk registers. Committee members

should consider this section when considering the overall implications of our findings.

**5. LEGAL IMPLICATIONS**

- 5.1 The Internal Audit Report considers the impact our review findings may have on organisational risk registers. Committee members should consider this section when considering the overall implications of our findings.

**6. REPUTATIONAL IMPLICATIONS**

- 6.1 The Internal Audit Report considers the impact our review findings may have on organisational risk registers. Committee members should consider this section when considering the overall implications of our findings.

**7. SOCIAL IMPLICATIONS**

The Internal Audit Report considers the impact our review findings may have on organisational risk registers. Committee members should consider this section when considering the overall implications of our findings.

**8. COMMUNITY IMPACT**

- 8.1 The Internal Audit Report considers the impact our review findings may have on organisational risk registers. Committee members should consider this section when considering the overall implications of our findings.

**9. EQUALITIES IMPLICATIONS**

- 9.1 The Internal Audit Report considers the impact our review findings may have on organisational risk registers. Committee members should consider this section when considering the overall implications of our findings.

**10. ENVIRONMENT IMPLICATIONS**

- 10.1 The Internal Audit Report considers the impact our review findings may have on organisational risk registers. Committee members

should consider this section when considering the overall implications of our findings.

**RECOMMENDATIONS**

Members are requested to discuss the report.

## Internal Audit Report

### Follow-up – Q4 2019/20

Introduction and background	1
Summary of progress	2
Appendix 1: Action status by report	6
Appendix 2: Summary of actions past their due date	8
Appendix 3: Audit Risk Categorisations	31

# Introduction and background

## Introduction

As part of the Internal Audit programme we complete a follow up review every quarter to provide the Audit & Risk Committee with assurance that actions agreed in previous Internal Audit reports have been implemented sufficiently.

This report encapsulates the progress made by management in implementing the agreed management actions during Q4 2019/20.

## Scope

A follow up tracker is maintained by Police Scotland (PS) to record updates on the progress made by management across PS to implement actions from previous internal audits. We have agreed with Police Scotland that they will make the tracker available to Internal Audit on a quarterly basis for review. We also liaise with SPA staff to obtain updates in relation to SPA-specific actions.

For recommendations graded priority 3 or above, we requested evidence to validate completion of any actions marked for closure by management.

## Audit Committee action

The Audit and Risk Committee is asked to note the progress made and the revised due dates for overdue actions as detailed within Appendix 2.

## Acknowledgements

We would like to thank all staff who provided updates for their assistance and co-operation.

# Summary of progress

The table below sets out the movement in actions included on the Audit Recommendation Tracker including any outstanding actions brought forward from the previous review in January 2020:

	Number of Actions
Open actions brought forward from January 2020	41
New actions added to tracker	12
<b>Total actions to follow-up</b>	<b>53</b>
Actions closed to April 2020	16
<b>Open actions carried forward</b>	<b>37</b>

## Status of Actions as at April 2020

We confirmed that management have made reasonable progress with their actions and we have been able to validate the closure of 16 actions (30%), 8 of which are higher risk (Grade 3 or 4). Of the 37 remaining actions, 31 have passed their original due date and we have obtained revised due dates and updates from management for each of these.

Due to the ongoing COVID 19 pandemic Police Scotland have reprioritised staff and resources on critical activities, which has had a knock-on impact on the organisation's ability to fully complete some outstanding actions. This is reflected in the volume of actions that are in progress. In particular, we noted 11 actions that could not be finalised as a consequence of the suspension of a number of business as usual activities, and a further 12 that relate to projects or workstreams which have been paused or delayed as a consequence of COVID-19 response.

Due to the unpredictable nature of the current situation management have not, in all cases, been able to provide reliable revised due dates. Where this is the case we have recorded a revised due date of the end of Q1 2020/21 and will revisit these due dates in our next follow up. Management updates for all overdue actions are included within Appendix 2.

A summary of the status of all actions by report is shown at Appendix 1.

## Total outstanding actions

The following graph illustrates management’s progress in implementing recommendations since January 2017. The “total” line shows total outstanding audit actions, while the “past due” line shows the number of actions past their original due date.

The total number of outstanding audit actions has decreased slightly from 41 to 37. The number of actions past their due date has increased from 17 to 31, however as noted previously this is partially due to the suspension of some business usual activity in response to COVID-19. Overall both the total number of actions and the number of actions past due both remain at relatively low levels compared with prior years.

## Status by Grading

Until 2017/18, we categorised our recommendations using a sliding scale, as outlined below.

Priority	Definition
Grade 5	Very high risk exposure - Major concerns requiring immediate Board attention.
Grade 4	High risk exposure - Absence / failure of significant key controls.
Grade 3	Moderate risk exposure - Not all key control procedures are working effectively.
Grade 2	Limited risk exposure - Minor control procedures are not in place / not working effectively.
Grade 1	Efficiency / housekeeping point.

# OFFICIAL

From 2017/18, our categorisations changed as follows.

4	<ul style="list-style-type: none"> <li>• Very high risk exposure - major concerns requiring immediate senior attention that create fundamental risks within the organisation.</li> </ul>
3	<ul style="list-style-type: none"> <li>• High risk exposure - absence / failure of key controls that create significant risks within the organisation.</li> </ul>
2	<ul style="list-style-type: none"> <li>• Moderate risk exposure - controls are not working effectively and efficiently and may create moderate risks within the organisation.</li> </ul>
1	<ul style="list-style-type: none"> <li>• Limited risk exposure - controls are working effectively, but could be strengthened to prevent the creation of minor risks or address general house-keeping issues.</li> </ul>

## Pre 2017/18 actions

## 2017/18 onwards

## Age and grade of open actions

The chart below shows the number and grade of open actions categorised by the year in which the actions were raised:

## Movement in Audit Actions

The graph below prioritises the outstanding actions by grade, as reported in our follow up reports since August 2017.

Appendix 2 sets out the current status of those actions classed as “in progress”, based on updates provided by management.
